Transportation Planning Agencies Financial Transactions Report Instructions

Introduction

The purpose of the Transportation Planning Agencies Financial Transactions Report is to provide financial data to the California State Legislature and other interested parties about transportation planning agencies, boards, and commissions and their activities on a basis as uniform and comparable as possible. This report is meant to complement the information reported in the California State Controller's Transit Operators Financial Transactions Report.

Pursuant to Public Utilities Code Section 99406 and California Code of Regulations (CCR) Section 6660, the California State Controller developed the Transportation Planning Agencies Financial Transactions Report. This annual report is required to be filed by all transportation planning agencies who are governed by the regulations of the Transportation Development Act (TDA), or are California special districts engaged in transportation planning or funding. Senate Bill 498, Chapter 673, Statutes of 1987 requires the California State Controller to publish the financial transaction reports in an annual report to the Legislature.

Prior to the enactment of Senate Bill 498, most transportation planning agencies were required by statute or administrative code to submit reports of their financial transactions to the California State Controller and the California Department of Transportation. Two separate reports are no longer necessary because that information is now collected in the Transportation Planning Agencies Financial Transactions Report.

Transportation Planning Agencies Financial Transactions Report Instructions

Filing Instructions:

General reporting instructions, electronic report format instructions, paper reporting forms, and applicable California laws and regulations related to the reporting requirements for preparing the Transportation Planning Agencies Financial Transactions Report are available on the California State Controller's Web site at www.sco.ca.gov.

Who Must File:

All transportation planning agencies must annually file the Transportation Planning Agencies Financial Transactions Report as required by Public Utilities Code section 99406 and Government Code Section 12463.1, and as detailed in California Code of Regulations section 6660, and prescribed in

What to File:

The following reports must be submitted by the statutory deadline. Although the Transportation Planning Agencies Financial Transactions Report can be submitted in the prescribed electronic report format, the signed Cover Page Form of the Transportation Planning Agencies Financial Transactions Report must be mailed in paper form to complete filing requirements.

- **Transportation Planning Agencies Financial Transactions Report** (including signed Cover Page Form)

When to File:

Per Government Code section 53891(a), this report is due within seven months after the end of each fiscal year. The report shall contain underlying data from audited financial statements prepared in accordance with generally accepted accounting principles, if this data is available. Be advised that there is no statutory authority for the California State Controller to grant extensions for filing this report.

How to File:

All reports must be filed by the respective deadline via one of the following methods. Reports can be filed via the Internet File Transfer Protocol process, U.S. Mail, or Express Mail.

By File Transfer Protocol:

The electronic report can be filed via your agency's File Transfer Protocol or by using your Web browser. Please refer to the Automated Report Guidelines available on the California State Controller's Web site at:

www.sco.ca.gov/ard_locinstr_trpa_forms.html

Please remember that the signed Cover Page Form must be mailed to the California State Controller's Office to complete filing requirements.

General Instructions:

Accounting System

This report is based on the accounting principles as promulgated by the Governmental Accounting Standards Board (GASB). Information on governmental accounting can be found in the Governmental Finance Officers Association (GFOA) publication, 2001 *Governmental Accounting Auditing, and Financial Reporting* (GAAFR). The financial statements that comprise this report do not necessarily conform to GASB standards but are intended to provide a uniform and comprehensive summary of the results of operations of the transportation planning agencies.

The reporting forms provided encompass the diversity of accounting practices and financial reporting used by transportation planning agencies. There is no prescribed uniform system of accounts for transportation planning agencies. Therefore, each agency must prepare this report using the fund types and account groups from which it prepares its annual financial statements. Thus an agency that utilizes proprietary or enterprise fund accounting should also report those transactions using the **Balance Sheet - Fiduciary and Proprietary Funds** and **Statement of Revenues and Expenditures - Proprietary Fund Types Forms**. Complete only the forms and columns that are relevant to the accounting basis used by your agency.

For the purposes of this report, the Local Transportation Fund (LTF) and State Transit Assistance Fund (STAF) must be reported separately on the **Fiduciary Funds Types Form**. Although many agencies account for these funds in special revenue funds, all agencies must report their LTF and STAF funds as a fiduciary fund type.

Audit Requirement

Although the Transportation Planning Agencies Financial Transactions Report is not required to be audited, it is desirable for an agency to have its audit completed for use in preparing this financial report.

Funds and Account Groups:

The General Fund is used to account for all resources not required to be accounted for in another fund.

Special Revenue Funds are used to account for resources that are legally or administratively restricted for specific purposes.

Debt Service Funds are established to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds are created to account for financial resources to be used for the requisition or construction of major capital facilities (other than those financed by Proprietary Funds, Special Assessment Funds, and Trust Funds).

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to a business enterprise.

Expendable Trust Funds account for assets held by the reporting government that have been provided to the government through a trust agreement. In this fund, both the principal and the earnings on the principal may be expended in accordance with applicable trust agreements. For the purposes of this report both the LTF and the STAF are treated as expendable trust funds.

Transportation Planning Agencies Financial Transactions Report Instructions

General Instructions - (Continued):

General Long-Term Debt Account Group is a self-balancing group of accounts set up to account for the un-matured long-term debt.

General Fixed Assets Account Group is a self-balancing group of accounts set up to account for the fixed assets of the agency.

Definition of Terms

The Fund Schedule of Apportionments and the Schedule of Allocations, Expenditures and Purposes Regarding the Local Transportation Fund and the State Transit Assistance Fund are concerned with the amounts apportioned, allocated, and expended by the action of the transportation planning agency. These forms identify the purposes of the allocations or expenditures to the various LTF or STAF claimants. The TDA defines the most important terms and is with one exception, the source for the following definitions.

Allocation

The amounts specified in an allocation instruction by the transportation planning agency authorizing the county auditor to set funds aside or make payments to a claimant. An allocation from final allocation instructions is reported on the **Schedule of Allocations and Purposes Regarding the Local Transportation Fund by Claimant Form** under the category "Allocations".

Refer to Public Utilities Code sections 99230, 99235, 99313, and 99314 and California Code of Regulations sections 6618, 6659, 6714, and 6753 for more detailed information.

Apportionment

The amounts of the area apportionments from the LTF as determined by the transportation planning agency and reported to the various claimants pursuant to CCR Section 6644. Apportionment can be defined as the statutorily mandated division of LTF by population to areas within a county. Apportionments are reported on the **Local Transportation Fund Schedule of Apportionments by Areas of Apportionment Form**.

Refer to Public Utilities Code section 99231 et seq. and California Code of Regulations Section 6644 for more detailed information.

Expenditure

Expenditure is an accounting term that refers to decreases in net financial resources. The term expenditure is not synonymous with allocation, although the expenditure amount may equal the allocation amount. Expenditures are the actual activities in the LTF or STAF trust funds.

Reporting Format Requirements:

Required Versus Optional Forms

All required forms must be completed. Those forms referred to as "optional" must be completed, if applicable to the agency's activities in order to prepare a complete report for the agency. The reporting forms are organized in the order in which they should be completed.

Schedule of Agency Long-Term Debt Form:

All transportation planning agencies that had revenue bonds, lease obligations, or other loans authorized and/or outstanding during the reporting year must complete this form. Indicate the type of debt for each authorization. Make additional copies of this form as needed.

General Instructions:

The purpose of this form is to report all indebtedness of the agency. Report long-term such as revenue bonds, certificates of participation, leases payable, notes payable, and other long-term debt of the agency.

Specific Instructions:

Information reported for each debt must be consistently reported throughout the term of the bond. It is important to properly classify the type of debt and purpose for each new issuance. The information reported will be published as reported by the agency until maturity. You will not be able to modify this information on the electronic report once established.

Use a separate form for each debt issued. Report only the principal payments of debt service on this form.

Refunding bond issues should be reported in addition to the original issue that will be refunded until the original issue is "called" and redeemed. Once the original issue has been legally extinguished or "defeased" through the establishment of a trust, the original issue should no longer be reported.

Forwarded from Prior Year

The electronic report will carry forward information from the prior year report for each type of debt reported. If preparing a paper report, you should enter "Yes" if you previously reported this debt. Enter "No" if you have not previously reported this debt.

Indicate Type of Debt

Transportation Planning Agencies Financial Transactions Report Instructions

Excerpts from the California Government Code, Public Utilities Code, and the California Code of Regulations Relating to Transportation Planning Agencies

Government Code Sections

- 12463 (a) The Controller shall compile, publish, and make publicly available on the Controller's Internet Web site, in a format that may be printed and downloaded, reports of the financial transactions and information on annual compensation, consistent with subdivision (l) of Section 53892, of each county, city, and special district, respectively, within this state, together with any other matter he or she deems of public interest. The reports shall include the appropriations limits and the total annual appropriations subject to limitation of the counties, cities, and special districts. The reports to the Controller shall be made in the time, form and manner prescribed by the Controller.
- (b) The Controller shall compile and publish reports of the financial transactions of each county, city, and special district pursuant to subdivision (a) on or before November 1 of each year following the end of the annual reporting period. The Controller shall make data collected pursuant to this subdivision available upon request to the Legislature and its agents, on or before April 1 of each year.
- 12463.1 (a) The Controller shall appoint an advisory committee consisting of seven local governmental officers to assist him or her in developing complete and adequate records.
- (b) Whenever, in the opinion of the advisory committee and the Controller, the public welfare demands that the reports of the financial transactions of a district other than a school district be published, the Controller shall notify the district that reports of its financial transactions are required to be furnished to him or her pursuant to Article 9 (commencing with Section 53890) of Chapter 4 of Part 1 of Division 2 of Title 5. **A public entity, agency, board, transportation planning agency designated by the Secretary of Transportation pursuant to Section 29532, or commission provided for by a joint powers agreement pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1,** and a nonprofit corporation as defined in subdivision (d), shall be deemed a district within the meaning of this section. The Controller shall compile and publish these reports pursuant to Section 12463.
- (d) For purposes of this section, "nonprofit corporation" means any nonprofit corporation (1) formed in accordance with the provisions of a joint powers agreement to carry out functions specified in the agreement; (2) that issued bonds, the interest on which is exempt from federal income taxes, for the purpose of purchasing land as a site for, or purchasing or constructing, a building, stadium, or other facility, which is subject to a lease or agreement with a local public entity; or (3), wholly owned by a public agency.
- 53890 As used in this article, "local agency" means any city, county, any district, and any community redevelopment agency required to furnish financial reports pursuant to Section 12463.1 or 12463.3.

Transportation Planning Agencies Financial Transactions Report Instructions

Government Code Sections - (Continued)

- 53891 (a) The officer of each local agency who has charge of the financial records shall furnish to the Controller a report of all the financial transactions of the local agency during the preceding fiscal year. The report shall contain underlying data from audited financial statements prepared in accordance with generally accepted accounting principles, if this data is available. The report shall be furnished within seven months after the close of each fiscal year and shall be in the form required by the Controller. A local agency shall submit to the Controller information on annual compensation, as described in subdivision (l) of Section 53892, for the previous calendar year no later than April 30th.
- (b) The Controller shall prescribe uniform accounting and reporting procedures that shall be applicable to all local agencies except cities, counties, and school districts, and except for local agencies that substantially follow a system of accounting prescribed by the Public Utilities Commission of the State of California or the Federal Energy Regulatory Commission. The procedures shall be adopted under Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. The Controller shall prescribe the procedures only after consultation with and approval of a local governmental advisory committee established pursuant to Section 12463.1. Approval of the procedures shall be by majority vote of the members present at a meeting of the committee called by the chairperson thereof.

Transportation Planning Agencies Financial Transactions Report Instructions

Public Utilities Code Section

99406 Expenditures of moneys received for streets and highways purposes under this article shall be reported to the Controller by way of inclusion of information regarding those expenditures in the report prepared pursuant to Chapter 4 (commencing with Section 2150) of Division 3 of the Streets and Highways Code.

The Controller shall also prepare a summary of those expenditures, which shall include a list of the jurisdictions for which funds have been allocated for streets and roads under this article, the amount of the allocations, and the total funds made available to each jurisdiction pursuant to Article 3 (commencing with Section 99230). The Controller shall submit the report annually to the Legislature commencing January 1, 1989.

California Code of Regulations

6660 Report to the Controller.

Each transportation planning agency, county transportation commission and the San Diego Metropolitan Transit development Board shall submit, within 90 days after the end of the fiscal year an annual financial transactions report to the Controller pursuant to Public Utilities Code Section 99406. The report shall include:

- (a) A summary of the local transportation fund pursuant to Article 3 commencing with Public Utilities Code Section 99230 and the state transit assistance fund pursuant to Article 6.5 including:
 - (1) The apportionment of each area as determined pursuant to Section 6644.
 - (2) A listing of final allocations identified by claimant and purpose, for the local transportation and state transit assistance funds.
 - (3) The beginning fund balances, the amounts and sources of revenues, the amount of expenditures from the funds, including the expenditure of earned interest transferred out of the fund and the analysis of the ending fund balances.
 - (4) The report shall contain the financial data in the time, manner and form prescribed by the Controller for this purpose.
- (b) The Controller shall compile the information contained in these reports into an annual report to the Legislature as required in Public Utilities Code Section 99406.
 - (1) This annual report in subdivision (b) may be combined with the State Controller's annual report pursuant to Public Utilities Code Section 99243.5.
