THE COVER

The Miner Avenue subway was originally constructed in 1926 for $100,000. The subway provided 2-way traffic under the Southern Pacific and Western Pacific Railroads' main lines through Stockton. Initial efforts for funding, the reconstruction of the subway, commenced in 1973 with the construction contract awarded February 1978 and work began April 1978. The project increased the lanes of traffic from two to four and replaced the existing railroad bridge. The project was completed in June 1980 at a total cost of 5 million dollars. Financing was provided by State grade separation funds, Southern Pacific and Western Pacific Railroads, and City funds.

FOREWORD

This is the THIRTY–THIRD publication of the Annual Report of Financial Transactions concerning Streets and Roads of Cities and Counties of California.

Approximately one billion 239 million dollars was spent during this fiscal year on streets and roads. The charts and tables contained in this publication continue to reflect increases in monies made available and expended for construction and maintenance of our vast network of streets and roads.

We extend our sincere appreciation to the many officials of local governments for their contributions to this report.

INTRODUCTION

The various tables of this report were prepared by the Division of Local Government Fiscal Affairs of the State Controller's Office from data contained in reports filed by the Cities and Counties under the provisions of Sections 2151 to 2154 of the Streets and Highways Code. These Sections require each city and county to file an annual report of expenditures for street or road purposes. This report is due in the State Controller's Office on or before October 1 following the close of the fiscal year.

In accordance with the requirements, 58 counties and 420 cities filed reports. There were three new cities incorporated during the fiscal year 1979–80. These cities were Atascadero, incorporated in 6–6–79, Avenal, incorporated in 9–18–79, and Paradise, incorporated in 11–27–79. There are 422 incorporated cities, two of which, Hidden Hills and Rolling Hills, contain no public streets and receive no apportionments from the Highway Users Tax Fund, therefore, are not required to file a report.

All counties are required by the Government Code to report expenditures on an accrual basis. Cities may maintain their records on a cash system, accrual system or modification of these.

Most of the medium and small cities report on a cash basis. Many of the larger cities and some medium ones report on an accrual basis. With respect to those on an accrual basis, the term "restricted balance" used throughout this publication should be considered as the excess of current assets over current liabilities.

The monies made available to local agencies for street or road purposes are derived from Federal, State and Local Funds. Accordingly, this report contains all monies made available from such revenue sources as gas tax apportionments, district road taxes, special assessments, street, road, or bridge taxes and proceeds from sale of bonds restricted exclusively to expenditure on streets and roads. Where monies received were available for expenditure on streets and roads, but not restricted to these expenditures, such monies are reported only to the extent of actual expenditure during the 1979–80 fiscal year.

Table 14 is the exception to the above statement. This table reflects street or road purpose expenditures from other than the treasury of the reporting agency and records expenditures by other governmental agencies or private parties. As the accuracy of these expenditures is not subject to verification by the State Controller's Office, the expenditures set forth in this table are not included in the other tables of this report.

As California continues to grow, the planning required to build and maintain an ever increasing number of streets and roads becomes constantly more difficult and correspondingly more important. This Annual Report of the Financial Transactions Concerning Streets and Roads of Cities and Counties of California indicates how important a contribution they have made.

With the schedules and charts for the five–year period July 1, 1975 through June 30, 1980 included herein, this Report with those preceding it provides interesting and informative data regarding the improvement of Streets and Roads in California.

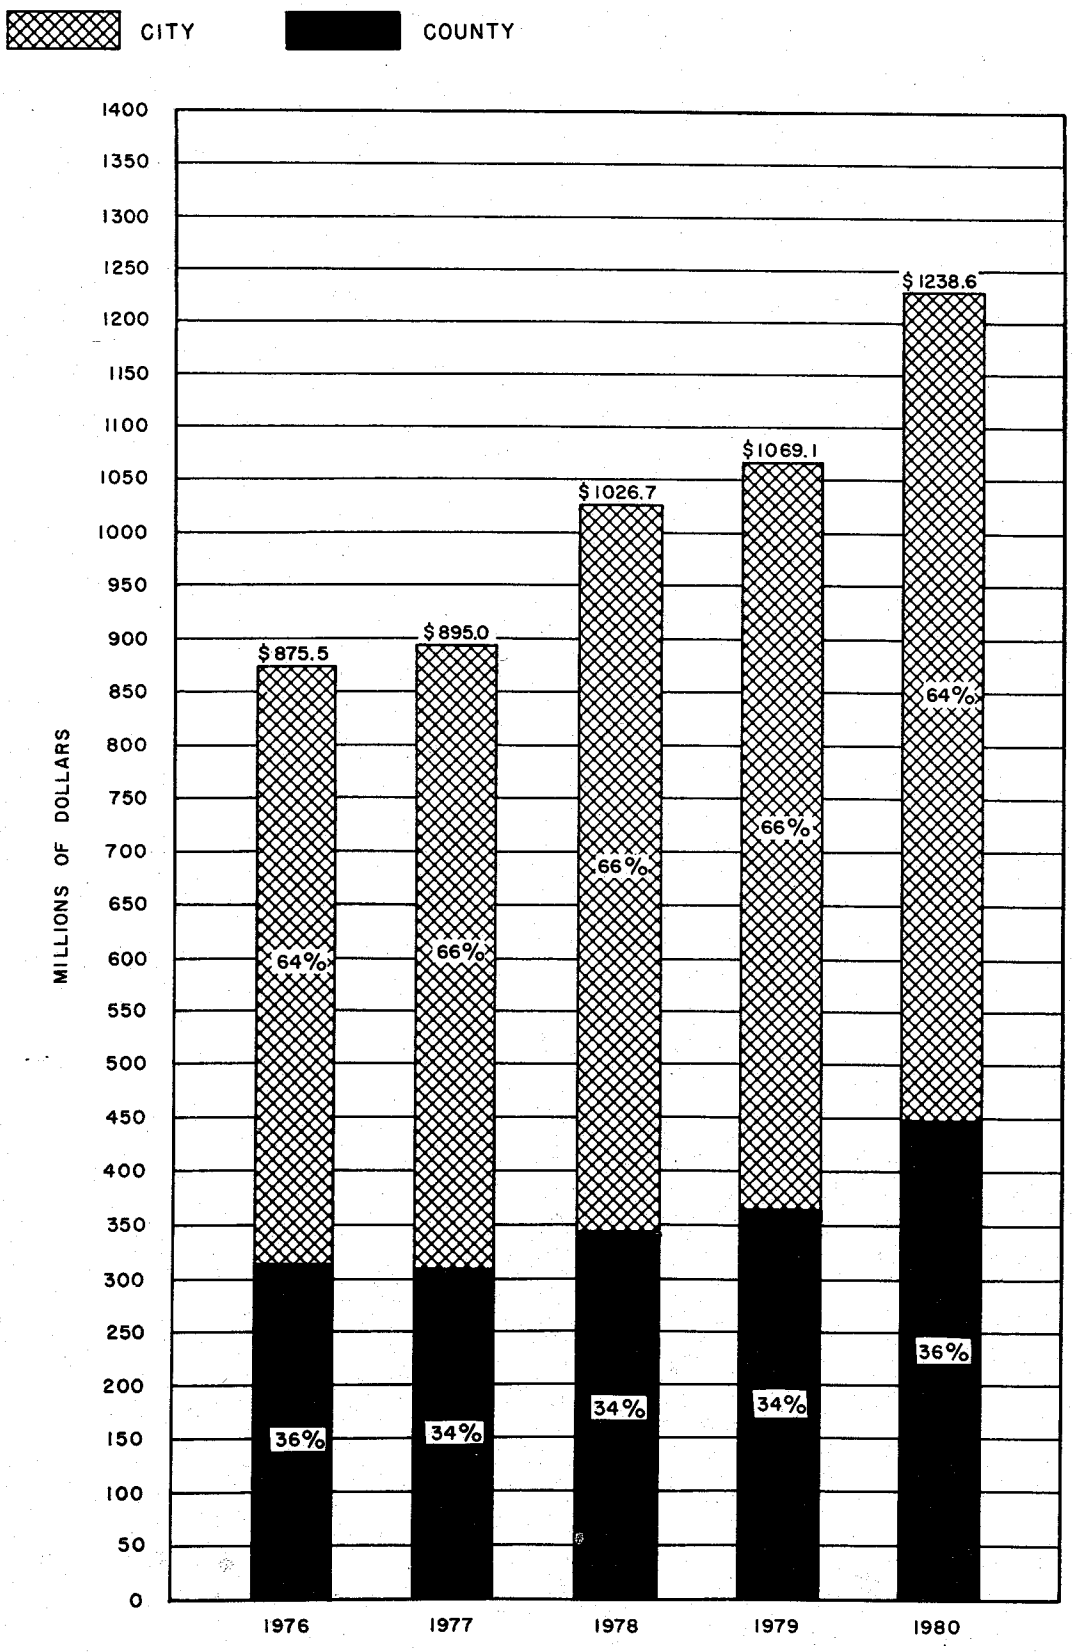
[1] Amounts eliminated represent contributions from Counties to Cities. Since the reporting agencies are required to report all the expenditures made on their streets or roads, the contributions received by the cities will be reflected in their reports of expenditures. Thus, to avoid duplication, the contributions should not be considered as a part of the grand total of expenditures made for street or road purposes of the agencies making the contributions.

CHART 1

COMBINED CITY AND COUNTY EXPENDITURES FOR STREET AND ROAD PURPOSES

FIVE FISCAL YEARS 1976 - 80



City and County Expenditures

Cities and counties reported combined expenditures of $1,238,641,427 for street and road purposes during the 1979–80 fiscal year. This is an increase of $169,476,247 over the previous fiscal year. Subsequent pages of this summary give the major classes of street and road expenditures and show pertinent amounts together with applicable percentages.

COUNTY SUMMARY

General

The detail of expenditures by others on the reporting agency's road system are not included with the counties regular expenditures but are reported in Table 14.

County Expenditures

County road purpose expenditures for the 1979–80 fiscal year are reported as $449,051,313. Work Performed by Other Governmental Agencies totaling $3,777,384 is not included in the above figure. This year's expenditures are $86,597,934 more than last year.

The reported expenditures do not include county money deposited with the State Division of Highways for the county's share of the cost of Federal Aid Secondary and other state administered road projects. These deposits are part of the restricted balance until they are reported as expenditures in the fiscal year in which the determination is made as to the final cost and source of financing of the project.

The following schedule shows the total amounts expended during the 1979–80 fiscal year by the counties and by other governmental agencies on behalf of the counties. Details are included in Table 11 and Table 14.
