FOREWORD

This is the FORTIETH publication of the Annual Report of Financial Transactions Concerning Streets and Roads of Cities and Counties of California.

Approximately two billion 251 million dollars was spent during this fiscal year on streets and roads. The charts and tables contained in this publication reflect increases in monies made available and expended for construction and maintenance on our vast network of streets and roads.

We extend our sincere appreciation to the many officials of local governments for their contributions to this report.

INTRODUCTION

The various tables of this report were prepared by the Division of Local Government Fiscal Affairs of the State Controller's Office from data contained in reports filed by the Cities and Counties under the provisions of Sections 2151 to 2154 of the Streets and Highways Code. These Sections require each city and county to file an annual report of expenditures for street or road purposes. This report is due in the State Controller's Office on or before October 1 following the close of the fiscal year.

In accordance with the requirements, 58 counties and 443 cities filed reports. There were three new cities incorporated during the fiscal year 1986–87. These cities were West Sacramento, Encinitas, and Solana Beach. All of which were incorporated July 1, 1986. There are 444 incorporated cities, one of which, Rolling Hills, contains no public streets and receives no apportionments from the Highway Users Tax Fund. Therefore, Rolling Hills is not required to file a report.

All counties are required by the Government Code to report expenditures on an accrual basis. Cities may maintain their records on a cash basis, accrual basis or modification of these.

Most of the medium and small cities report on a cash basis. Many of the larger cities and some medium ones report on an accrual basis. With respect to those on an accrual basis, the term "restricted balance" used throughout this publication should be considered as the excess of current assets over current liabilities.

The monies made available to local agencies for street or road purposes are derived from Federal, State and Local Funds. Accordingly, this report contains all monies made available from such revenue sources as gas tax apportionments, district road taxes, special assessments, street, road, or bridge taxes and proceeds from sale of bonds restricted exclusively to expenditure on streets and roads. Where monies received were available for expenditure on streets and roads, but not restricted to these expenditures, such monies are reported only to the extent of actual expenditure during the 1986–87 fiscal year.

Table 14 is the exception to the above statement. This table reflects street or road purpose expenditures from other than the treasury of the reporting agency and records expenditures by other governmental agencies or private parties. The expenditures set forth in this table are not included in the other tables of this report.

With the schedules and charts for the five–year period July 1, 1982 through June 30, 1987, included herein, this Report with those preceding it provides interesting and informative data regarding the improvement of Streets and Roads in California.

CITY AND COUNTY SUMMARY

The schedule below summarizes street and road transactions during the 1986–87 fiscal year and the balances of restricted funds available for that purpose as of June 30, 1987. Details are shown in various tables of this report.

* Amounts eliminated represent contributions from Counties to Cities. Since the reporting agencies are required to report all the expenditures made on their streets or roads, the contributions received by the cities will be reflected in their reports of expenditures. Thus, to avoid duplication, the contributions should not be considered as a part of the grand total of expenditures made for street or road purposes of the agencies making the contributions.

City and County Expenditures

Cities and counties reported combined expenditures of $2,250,673,421 for street and road purposes during the 1986–87 fiscal year. This is an increase of $281,950,119 from the previous fiscal year. Subsequent pages of this summary give the major classes of street and road expenditures and show pertinent amounts together with applicable percentages.

Work performed by one governmental agency on another agency's street or road system is not reflected in the above expenditure amount. Details of these expenditures, which reflects a decrease of $60,273,959 from the previous year, are shown in Table 14.

Chart 1 shows combined city and county expenditures for streets and roads during each of the last five years.

Monies Made Available to Cities and Counties

A total of $2,293,852,420 was made available for street and road purposes during the 1986–87 fiscal year. This represents an increase of $91,415,605 from the 1985–86 fiscal year.

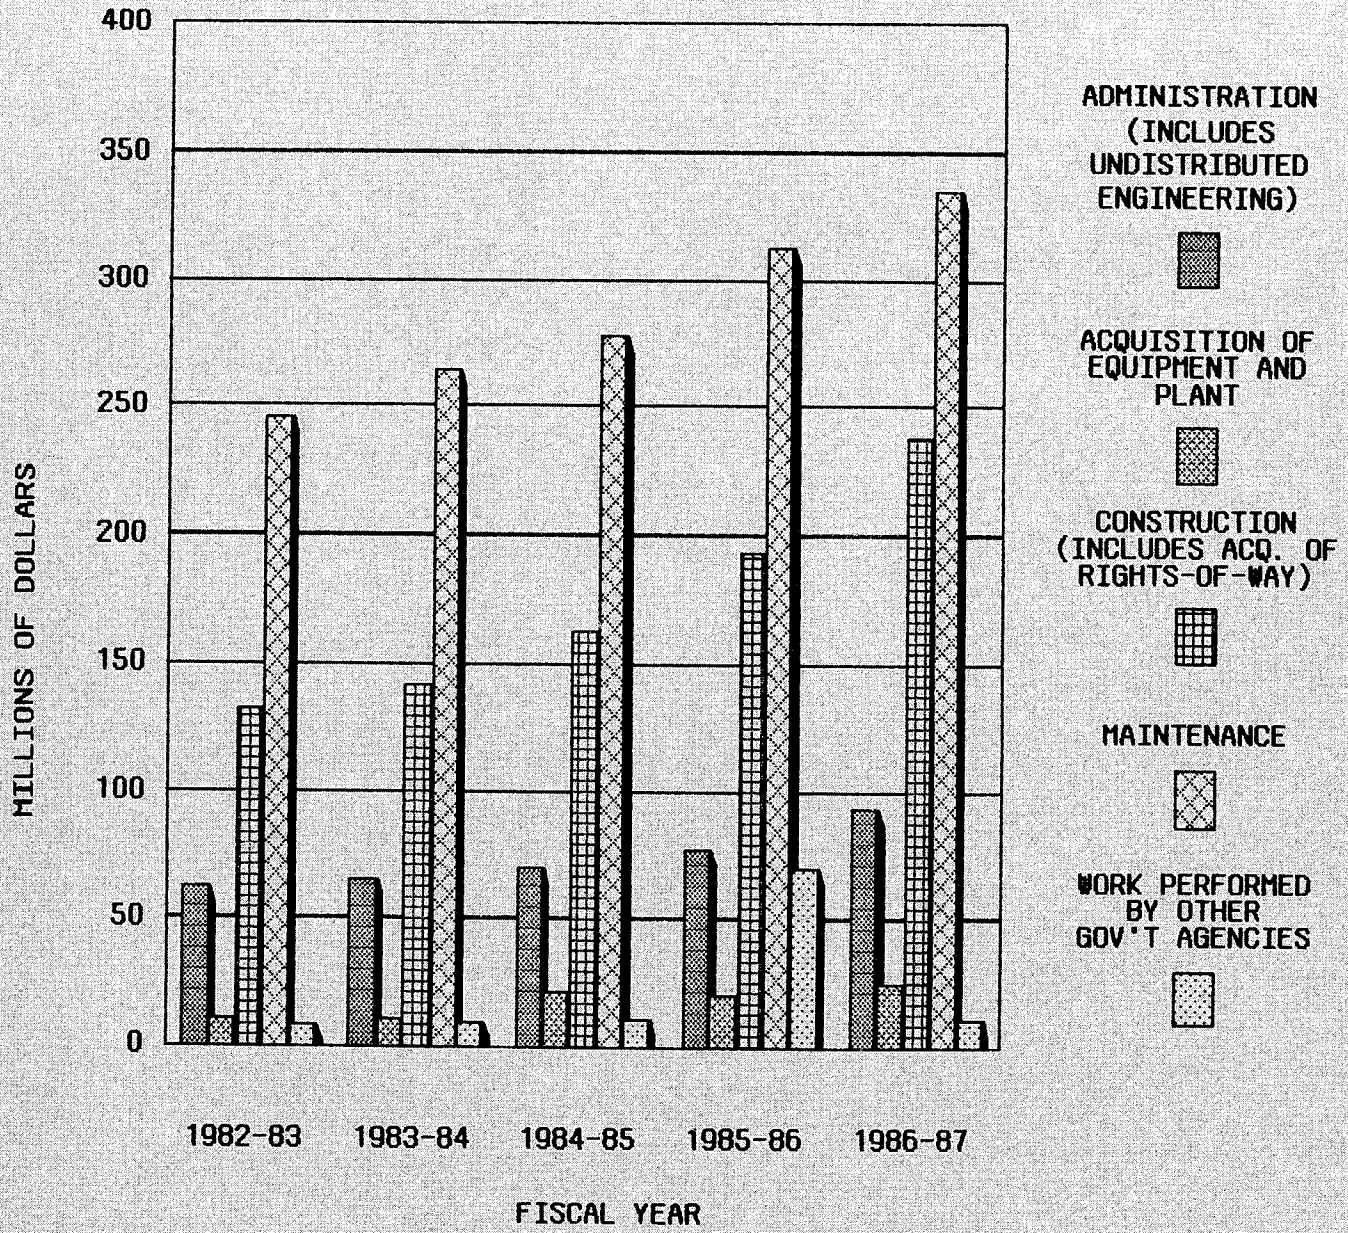
FIVE FISCAL YEARS 1983 – 1987



Snow Removal Expenditures

Section 2152(c), Streets and Highways Code, requires all counties to file a schedule of expenditures for snow removal. Eighty percent of the amount in excess of $5,000 is reimbursable. The following tabulation shows the computed reimbursable costs of snow removal for those counties reporting such expenditures. Further, detail of actual snow removal expenditures is included in Table 11 under the maintenance category.
