FOREWORD

This is the forty-fifth publication of the Annual Report of Financial Transactions Concerning Streets and Roads of Cities and Counties of California.

Approximately 3 billion dollars was spent during the 1991-92 fiscal year on streets and roads. The charts and tables contained in this publication reflect transactions in monies made available and expended for construction and maintenance on our vast network of streets and roads.

We extend our sincere appreciation to the many officials of local governments for their contributions to this report.

INTRODUCTION

The various tables of this report were prepared by the Division of Local Government Fiscal Affairs of the State Controller's Office from data contained in reports filed by the Cities and Counties under the provisions of Sections 2151 to 2154 of the California Streets and Highways Code. These sections require each city and county to file an annual report of expenditures for street or road purposes. This report is due to the State Controller's Office on or before October 1 following the close of the fiscal year.

In accordance with the requirements, 58 counties and 466 cities filed reports. Of the 466 cities, seven were newly incorporated cities during the fiscal year 1991-92. All cities and counties have a July 1 - June 30 fiscal year except the City of South Lake Tahoe.

All counties are required by the Government Code to report on a modified accrual basis. Cities maintain their records on a cash basis, or modified accrual basis. With respect to those on the modified accrual basis, the term "restricted balance" used throughout this publication should be considered as the excess of current assets over current liabilities.

The monies made available to local agencies for street or road purposes are derived from Federal, State and Local Funds. Accordingly, this report contains all monies made available from such revenue sources as Highway Users Tax (Gas Tax) apportionments, district road taxes, special assessments, street, road, or bridge taxes and proceeds from sale of bonds restricted exclusively to expenditure on streets and roads. Where monies received were available for expenditure on streets and roads, but not restricted to these expenditures, such monies are reported only to the extent of actual expenditure during the 1991-92 fiscal year.

Table 14 is the exception to the above statement. This table reflects street or road purpose expenditures from other than the treasury of the reporting agency and records expenditures by other governmental agencies or private parties. The expenditures set forth in this table are not included in the other tables of this report.

With the schedules and charts for the five-year period July 1, 1987 through June 30, 1992, included herein, this report with those preceding it provides interesting and informative data regarding the improvement of streets and roads in California.

CITY AND COUNTY SUMMARY

The schedule below summarizes street and road transactions during the 1991-92 fiscal year and the balances of restricted funds available for that purpose as of June 30, 1992. Details are shown in various tables of this report.

* Amounts eliminated represent contributions from Counties to Cities. Since the reporting agencies are required to report all the expenditures made on their streets or roads, the contributions received by the cities will be reflected in their reports of expenditures. Thus, to avoid duplication, the contributions should not be considered as a part of the grand total of expenditures made for street or road purposes of the agencies making the contributions.

City and County Expenditures

Cities and counties reported combined expenditures of $3,011,424,013 for street and road purposes during the 1991-92 fiscal year. This is an increase of $242,843,802 or 8.8 percent from the previous fiscal year. Subsequent pages of this summary give the major classes of street and road expenditures and show pertinent amounts together with applicable percentages.

Work performed by one governmental agency on another agency's street or road system is not reflected in the above expenditure amount. Details of these expenditures, which reflects an increase of $7,029,560 from the previous year, are shown in Table 14.

Chart 1 shows combined city and county expenditures for streets and roads during each of the last five years.

Monies Made Available to Cities and Counties

A total of $3,045,566,143 was made available for street and road purposes during the 1991-92 fiscal year. This represents an increase of $178,471,585 or 6.2 percent from the 1990-91 fiscal year.

The following schedule shows the monies made available and the sources during the past five years.

PROPOSITION 111

Proposition 111, which was passed by the voters in June 1990, includes new sources of funding for cities and counties for streets and roads. Section 2105 of the Streets and Highways Code is the principle funding source for cities and counties arising out of Proposition 111.

For the 1991-92 fiscal year, cities received $106,578,835 while counties received $106,584,871 from Section 2105.

In order for a city or county to be eligible for Section 2105, it must meet a maintenance of effort in expending discretionary funds for streets and roads. Discretionary funding means any unrestricted funds that the city or county may expend at its discretion. For the 1991-92 fiscal year, the cities expended $834,320,029 or 46.3% of total street expenditures and counties expended $70,539,589 or 9.6% of total road expenditures in discretionary funding.

The following schedule summarizes street expenditures by source. Detail of these expenditures are shown in Tables 5 and 11.

Thus, to avoid duplication, the contribution should not be considered as part of the grand total of expenditures made for street or road purposes of the agencies making the contributions.
