Introduction

California Streets and Highways Code Section 2151 requires each city and county to file with the California State Controller's Office, on or before October 1 of each year, an annual report of expenditures for street or road purposes. Streets and Highways Code Section 2154 requires the California State Controller's Office to annually distribute a compilation of those reports. The financial tables presented in this report were prepared from data submitted by each city and county in its report.

Fifty-eight counties and 473 cities filed reports in compliance with Streets and Highways Code Section 2151. The city of Rolling Hills does not receive Highway Users Tax Account apportionments and therefore does not file an annual report with the California State Controller's Office. With two exceptions, all cities and counties use a July 1 through June 30 fiscal year. The cities of South Lake Tahoe and Huntington Beach use an October 1 through September 30 fiscal year.

The *Accounting Standards and Procedures for Counties* manual, published by the California State Controller's Office pursuant to Government Code Section 30200, requires counties to report on a modified accrual basis. Cities maintain their records on a cash basis or a modified accrual basis. With respect to entities using the modified accrual basis, the term "restricted balance" used throughout this report refers to the excess of current assets over current liabilities.

Monies made available to local agencies for street or road purposes are generally derived from federal, state, and local funds. Accordingly, this report lists all monies made available from such sources as Highway Users Tax apportionments; district road taxes and special assessments; street, road, or bridge taxes; and proceeds from the sale of bonds restricted exclusively to expenditures on streets and roads.

In addition, some funds expended for street and road purposes are derived from sources other than the reporting agency's treasury. Table 14 lists street and road expenditures by other governmental agencies and private parties. The expenditures presented in Table 14 are not included in the expenditure amounts of other tables in this report.

City and County Summary

As shown in Figure 1, approximately $4.2 billion was made available to California cities and counties for street and road purposes during the 1999-00 fiscal year, an increase of $232 million (5.9%) over the previous fiscal year.

Sources of monies made available for cities and counties are summarized on pages x and xiv, respectively. Detailed amounts of monies made available for each city and county are presented in Tables 3, 4, 9, and 10.

City and County Expenditures

Cities and counties reported combined expenditures of $4.1 billion, as shown in Figure 1. This is an increase of $218 million (5.6%) over fiscal year 1998-99. Figure 6 illustrates that cities' expenditures represented 75.5% of the total, and counties' expenditures represented 24.5%.

Figure 6

City and County Expenditures
Fiscal Year 1999-00

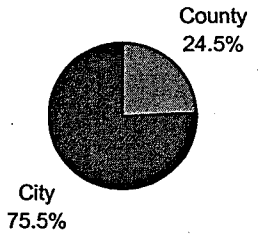

Figure 7 provides a breakdown of expenditures by classification for the 1999-00 fiscal year. This figure shows that, of the total expenditures reported by cities and counties, 46.6% was expended for construction and rights of way, 41.3% for maintenance, 10.5% for engineering and administration, and 1.6% for other expenditures. "Construction" includes construction of streets and roads, signals, safety devices, streetlights, pedestrian ways, bike paths, and storm drains, as well as street reconstruction and storm damage repair. "Maintenance" includes: patching, overlay, sealing; maintenance of streetlights and traffic signals; and snow removal and storm damage repair.

Total expenditures have increased by approximately $757 million (23.0%) since the 1995-96 fiscal year. Construction expenditures, which increased by $448 million (31.1%), accounted for the majority of the increase in total expenditures. Expenditures for maintenance increased by $250 million (17.6%). Administration and other expenditures increased by $59 million (13.6%) during this period.

Figure 7

Expenditures by Classification
Fiscal Year 1999-00

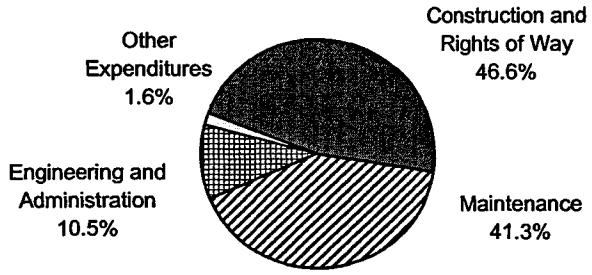

Figure 8 summarizes street and road expenditures by funding source. Streets and Highways Code Sections 2105 and 2106 designate that funding may be used for any street or road purpose. Section 2104 funds are restricted for county roads, Section 2107 funds are restricted for street purposes, and Section 2107.5 funds are restricted for city administration and engineering and, in special situations, for right-of-way acquisition and street system construction. Discretionary funding sources provided by cities and counties represent 22.5% of total expenditures. As referenced in Figure 8, nondiscretionary expenditures are those whose use is restricted, while discretionary expenditures are not restricted. County contributions are made by counties to cities for nondiscretionary purposes and are not included in the nondiscretionary total.

Expenditures by cities and counties are further summarized in Figures 14 and 20. Detailed expenditure figures for each city and county are presented in Tables 5, 6, 11, and 12.

Snow Removal Expenditures

The State provides for reimbursement of a limited amount of snow removal costs incurred by local entities. Streets and Highways Code Section 2152(c) requires cities and counties to file a schedule of expenditures for snow removal. Fifty percent of a city's expenditures in excess of $5,000 is reimbursable from state funds. As an example, the City of Truckee's report shows actual snow removal costs of $1,297,064. The actual amount minus $5,000 equals $1,292,064; 50% of $1,292,064 is $646,032. Cities with less than $5,000 in snow removal expenditures receive no reimbursement. There is no maximum reimbursement amount for cities.

Counties may claim 80% of their expenditures in excess of $5,000. However, if the total of all county claims submitted exceeds $7 million, the amount paid to each county is prorated using a formula based upon the claimed amounts submitted by all counties in the preceding three years.

Figure 10 shows the reimbursement amounts payable to those cities and counties reporting snow removal expenditures. Actual snow removal expenditures totaled $12,590,924 for fiscal year 1999-00. City snow removal expenditures accounted for $4.5 million and county snow removal expenditures accounted for $8.1 million of the total $12.6 million reported. The details for snow removal expenditures reported by cities and counties are listed under "Maintenance" in Table 5 and Table 11, respectively.
