CALATERS LETTER # 06-004

TO: All Agencies Participating in the California Automated Travel Expense Reimbursement System

FROM: ELEANOR ALVAREZ, Manager
California Automated Travel Expense Reimbursement System (CalATERS)

RE: CODE PROMOTION ANNOUNCEMENT

The CalATERS version 1.0.8.6. has been promoted to the Production and Training environments, August 31, 2006.

Sun Java Solution. Enhanced CalATERS to do two things. First, CalATERS can support Sun Java 2 plug-in version 1.4.1 or higher. Second, CalATERS has the ability to download the CalATERS applet code in appropriate subdirectories to accommodate locked down workstations.

Specialized Account Coding – Account Names. When a user utilizes specialized account coding an account name is created when entering account coding for an individual expense. The new code will not allow the user to enter a duplicate account name. Also, if the user has an existing duplicate entry in their account name listing an error message will appear requesting the user to edit one of the account name.

If you have questions, please contact your department's CalATERS Help Desk. Thank you.
