

FREQUENTLY ASKED QUESTIONS

Miscellaneous Questions:

- 1) **I keyed a P62 (LV System Eligibility screen) to make an employee leave system eligible, why didn't it work?**

A P62 should update the P18 - Employee Position History screen. If the P62 does not update the Employee Position History screen, check to see if any messages were generated. If a message was generated, look up the condition and action to be taken in your Message Section in the Workbook. If you cannot resolve the problem, contact the Leave Accounting Liaison.

- 2) **How do I end a waiting period?**

Use the B74 - Waiting Period Maintenance Screen. Modify the End Leave Period from the second line using 'M' to modify.
