SYSTEM INFORMATION

Section 1.0: FOREWARD (rev. 08/16)

The intent of the Personnel Action Manual (PAM) is to explain the procedures and forms used in the Employment History System. The PAM defines purpose, use and processing of the forms. It also provides descriptions, references, and instructions for completing forms and forms items.

Pages in the PAM are in sequential order by section. The first digit indicates the section (**example of section: Section 1.0**). The numbers following the decimal(s) indicate the sequential order within a section (**example of sequential order: Section 2.48; Section 2.48.1; 2.48.2**).

Revisions to the PAM are issued according to need. Revised pages are noted by the revision date on the Table of Contents within the PAM section, and within the subtitle of each section.

There are six forms used for reporting personnel/payroll information under the Employment History System. These forms are:

DESCRIPTION	FORM
Employee Action Request (EAR)	Form STD. 686
Request for Nondisclosure of Employee Home Address	Form STD. 677
Separation/Disposition of PERS Contribution Separation	Form STD. 687
Personnel Action Request (Turnaround PAR)	Form STD. 680
Personnel Action Request (Padded PAR)	Form STD. 680A
Notice of Personnel Action (NOPA)	NOPA

The employee initiates the EAR, Request for Confidentiality of Home Address, and the Separation forms. The EAR is used to report personal information relevant to employment with the State of California. The Request for Confidentiality is used to request confidentiality of home address or release of home address when previously withheld. The employee uses the Separation form to report separations from State employment, and disposition of PERS contributions made.

The PAR is a personnel form designed on the turnaround concept. It is used by appointing powers to report employee appointment, miscellaneous change and separation actions.

The NOPA is the official notice to an employee that a personnel action has been processed for that employee.

The PAM is maintained by the Personnel/Payroll Services Division of the State Controller's Office, Sacramento. Any questions or suggestions for improvement should be sent on a Critique Sheet (PSD 15) or an informal memo to:

There are now more than 230,000 State employees. The functions of hiring, paying, maintaining, and retiring this ever-growing work force were formerly managed by individual systems developed at State Personnel Board (SPB), State Controller's Office (SCO), Public Employees' Retirement System (PERS) and California State Universities and Colleges (CSU). These systems suffered from the burden of an ever-increasing workload and cumbersome methods of information exchange. The inefficiency of maintaining duplicate personnel data in four separate rosters was costly and resulted in excessive time lag.

The Legislature provided funding in the 1973/74 fiscal year to develop a centralized personnel/payroll, retirement documentation processing system. The control agencies, SPB, SCO, PERS, and CSU, participated jointly in the development of a new centralized data base system. It is called the Employment History System.

The Employment History System was designed and implemented by the Personnel Information Management System (PIMS) during 1974. It is the first of several systems to be designed by PIMS. Administratively, PIMS is a division of SCO.

The Employment History System was maintained and operated by the Personnel Services Division (PSD). This division was responsible for many of the processes previously performed by SPB and some of the processes performed by SCO Disbursements.

The Personnel Services Division and SCO's Payroll Section of Disbursements were combined into one division on August 1, 1976. This merger was made to provide more efficient service to departmental personnel offices through the consolidation of the closely interrelated functions of personnel and payroll processes under one administration known as the Personnel/Payroll Services Division (PPSD).

Personnel Services now maintains and operates the Employment History System for civil service, exempt and CSU employees. Units within Personnel Services are Staff Support, Clerical Support, Processing and Control, Audits, Liaison, Video on-line and Training and Procedures.

Conversion of employee records to the Employment History System was completed as follows: Civil Service - May 1976, CSU - December, 1976 and Exempt - May, 1977.

Since the inception of the Employment History System, the State Controller's Office has continued to examine methods and processes, which would expedite employees' pay. After several years of operating a centralized automated personnel/payroll system, during which time the process was simplified and streamlined as much as possible, it was determined further advancement of the system could only be obtained by allowing employing departments to update their records from their location.

In January 1981, a pilot project was established at the California State University at Sacramento. The pilot allowed the campus to directly input personnel and payroll related data into the State

Controller's Office computer system. The results of this pilot revealed that the decentralized input of data into the computer system improves the quality and timeliness of service, while maintaining the accuracy of data.

Employment History Decentralization for the California State Universities was completed September 1983. Employment History Decentralization for Civil Service/Exempt Departments began December 1982 and was completed September 1987 with the exception of Legislature's Assembly Rules Committee and the Lieutenant Governor's Office.
