MILITARY LEAVE PAY

Section G 500: DESCRIPTION (Revised 12/18)

- A. State civil service employees in the National Guard or other branches of the U.S. military ordered to active military duty for: an event authorized by the President of the United States or Congress, a State of Emergency event proclaimed by the Governor are entitled to receive their State salary (regular pay plus any pay differentials) for 30 calendar days **per event (short-term, long-term or emergency leave)** from their employer. On the 30th calendar day employees are placed on military leave by their departments and receive military leave pay, payment type 7. Military leave pay is the **difference** between their State salary and their military base pay received from other entities such as the National Guard or other branches of the U.S. military. Employees whose military pay (e.g., National Guard) is **greater** than their regular pay/State salary are not entitled to receive military leave pay, payment type 7 but have the option to continue their State sponsored benefits such as health, dental, and vision.
 1. Short Term Military Leave – State civil service employees who receive active military duty orders for six months or less are entitled to 30 calendar days of pay (PAR transaction S51).
 - a. An S51 transaction is defined as a short term military leave, however this code must also be used to process payments for long term and emergency military leave transactions in a timely manner.
 2. Long Term Military Leave – State civil service employees who receive active military duty orders for more than six months are entitled to 30 calendar days of pay (PAR transaction S52 if no pay is being issued).
 3. Emergency Military Leave – State civil service employees who are members of the California National Guard who receive active military duty orders of state emergencies shall be granted a military leave of absence; eligible for 30 calendar days of state pay for each emergency military leave (PAR transaction S53 if no pay is being issued).
- B. State civil service employees in the National Guard, or other branches of the U.S. military ordered to report for annual training are entitled to receive their State salary for 30 calendar days **per fiscal year**. Employees remain on pay status. However, if regular pay plus any pay differential orders are extended beyond the 30 days, employees are docked or placed on a military leave by their department. In this case employees are not entitled to receive the difference between their State salary and their military pay from other entities, such as the National Guard. However, their military time must be tracked by their department. For California Leave Accounting System (CLAS) participants, refer to Job-Aids Section – available on [SCO's web page](#) under Emergency Military Leave or Military Leave for specific Earnings IDs used to update military leave credits.

NOTE: Refer to the Personnel Action Manual (Civil Service/Exempt employees) or the Personnel Information Management System Manual (CSU/Exempt employees) for military leave processing instructions.
