

Direct Deposit Initiative

With direct deposit, your paycheck is automatically deposited into the financial institution of your choice – and with recent changes in the eligibility criteria, enrolling just got easier.

Direct deposit is also a convenient and consistent way to deposit net earnings (including supplemental payments such as overtime, shift differential, and premium pay) into your financial institution. This is especially beneficial in emergency situations in which the mailing of a paycheck could be delayed.

To enroll in, change, or cancel direct deposit, complete the [Direct Deposit Enrollment Authorization \(STD 699\)](#) and submit it to your human resources office.

For information on direct deposit, see the [SCO Direct Deposit FAQ](#).
