Track California's Daily Receipts During Peak of Tax Filing Season

SACRAMENTO — State Controller Betty T. Yee today launched an online tracker for daily personal income tax receipts through April. This month is a critical phase for the state's fiscal outlook as Californians file hundreds of thousands of tax returns and the new fiscal year starts July 1.

Last fiscal year, personal income taxes accounted for 66.9 percent of all state General Fund revenues. A sizable share of personal income taxes, 16.9 percent, arrived during the month of April.

The [daily tally](#) is accompanied by a chart showing how the running total compares to the \$13.5 billion estimate of April personal income tax receipts in January's budget proposal. The total consists of personal income taxes minus refunds.

As of the end of March, personal income tax receipts for the 2016-17 fiscal year totaled \$54.9 billion, 1.1 percent higher than anticipated in the governor's budget proposal.

State and federal returns for the 2016 tax year must be filed by April 18.

As the chief fiscal officer of California, Controller Yee is responsible for accountability and disbursement of the state's financial resources. The Controller also safeguards many types of property until claimed by the rightful owners, and has independent auditing authority over government agencies that spend state funds. She is a member of numerous financing authorities, and fiscal and financial oversight entities including the Franchise Tax Board. She also serves on the boards for the nation's two largest public pension funds. Elected in 2014, Controller Yee is the tenth woman elected to a statewide office in California's history.
